# How to Use

OR

**WRITE**

**TYPE**

You can choose to print these pages as is and have students pick six of their spelling words to write on the cut out pieces or you can type their words and print them for students to cut out. Students cut out their spelling words and put them in alphabetical order (starting with number 1). There is a lower case alphabet printed on every page for students to reference while they work.

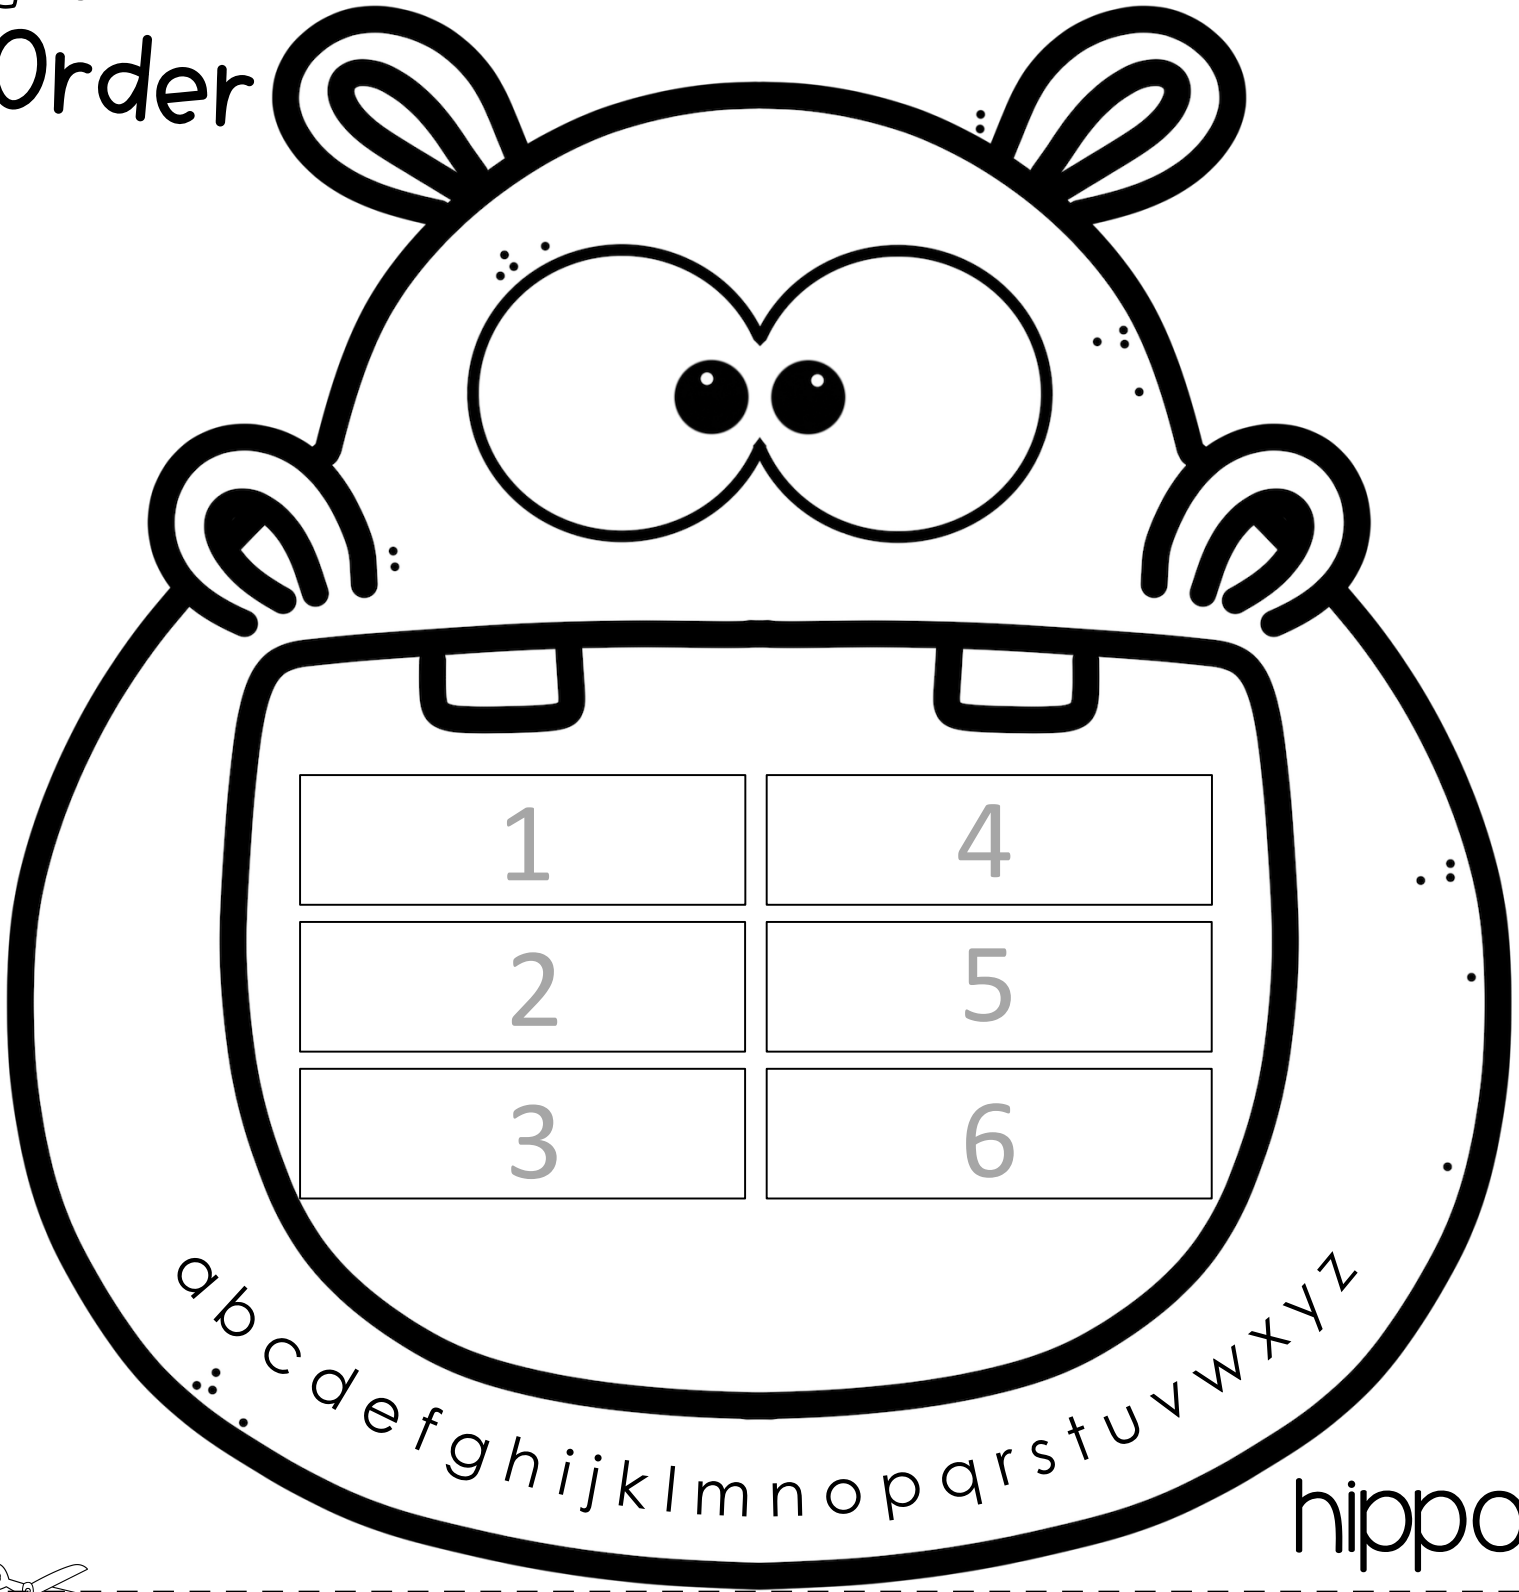

To type the words simply click on the blue text boxes and start typing. You will want to make sure you have the latest version of Adobe Reader downloaded for best results. Please note that the blue text boxes will not show up when you print the pages. **Only words you type will show up when printed** (that way you can print the pages with no words if you want students to practice writing their own words).

If your students struggle with ABC order, have them cross out each letter of the alphabet as they look at their spelling words. So for example I might ask, "Do any of my words start with the letter A?" If no, then I cross out the A and go to B, if yes, I write that word on my ABC order page then cross out letter A and move on to letter B. If more than one word starts with the letter A I look at the next letter in each word and start over with the alphabet to figure out which of the two words comes first.
