Assistive Technologies Flip Book Directions

*Do not use this page in the student flip book (it is just to give you more direction☺)

Directions: Cut along dotted lines stopping when you reach the solid line. Fold booklet the long way (like a hot dog) along heavy solid black line. Line as many blank pages (p.2) as you want inside the flip book and staple along thick black line (see notes below). Optional: Print cover (p.1) on cardstock for more durability.

Have students draw and label as many assistive technologies as they can think of to go with each category. They will lift up the flaps to draw each image. Below is a list of ideas to get you started.

Fold along this line

Staple here

Physical

- Wheelchairs
- Walkers
- Canes
- Glasses
- Hearing aids
- Helmets
- Switches

Staple here

Math

- Graphic Organizers
- Talking Calculators
